What are community grants?

Our Community Grant Fund can give one-off grants from £100 to £10,000 to local groups that need financial support to help them make their communities more sustainable.

By 'sustainable' we mean that people get on well with each other, work well together, support each other and act as good neighbours.

Schemes we can consider include local sports teams, community gardening, support to local community businesses and providing equipment or other resources to support lifelong learning.

To receive a grant the scheme must state clearly how it will contribute to making the community more sustainable. We will give priority to schemes and projects in areas where we act as landlord or provide other services.
